

RESIDENTIAL BUILDING PERMIT APPLICATION INSTRUCTIONS FOR COMPLETION

Contact and Permit Submission:

- Contact Planning and Zoning Administrator Jason Boal with questions regarding zoning requirements; joshw@victorcityidaho.com or 208-787-2940 x 14.
- For permit review submit completed Building Permit Applications to Deputy Clerk Cari Golden; carig@victorcityidaho.com or in person at Victor City Hall - 32 Elm Street, Victor, ID, 83455.

Building Permit Application Process: (If required)

1. The first step in the Building Permit process is to attend a Pre-Application Conference with the Planning and Public Works departments. For small scale residential projects this may occur over the phone. View the [Pre-Application Conference request form](#).
2. The second step is to receive Site Plan approval. View the [Site Plan Review application](#).
3. The third step is to fill out the Building Permit application and submit all applicable materials, plans and fees. It is the responsibility of the application to ensure all applicable materials, plans and fees are submitted. Upon receipt of all applicable materials, plans and fees the Building Permit Application will be reviewed. The City strives to process complete applications and issue permits for residential projects within 10 business days.

_____ (initial) _____ (date)

Building Permits Required:

1. Building permits are required for all construction, except for exemptions specifically excluded by the City of Victor Municipal Code, [Title 7: Building Regulations, Section 7-1-2-B: Construction and Demolition](#)
2. **Excavation** prior to the issuance of a Building Permit is NOT PERMITTED. In order to excavate you must apply for and receive an [Excavation Permit](#) in advance of your Building Permit.

_____ (initial) _____ (date)

Other Notes:

1. Residential single family, two-family and garage apartment or backyard cottage projects do not require an Architect's stamp in most cases, unless required by the Building Inspector. All residential projects with 3 units or more, or mixed use projects, require a stamp from an Idaho licensed Architect.
2. If you are building a new home, an addition to an existing home, or an accessory structure in a subdivision please comply with the design review procedure and/or the applicable CC&Rs of your subdivision. Contact your Home Owners' Association (HOA) for more information.
3. **Ground Snow Load** = 90 pounds. **Minimum frost depth** = 36 inches. Refer to the 2012 IRC.
4. Sample permit fee calculations can be found [here](#).
5. The location of residential garages must adhere to the regulations in Article 8: Building Types, [Div. 8.17 – Parking Location](#).
6. Residential driveways at the right-of-way must be between 10-12' in width for single car driveways and 20-24' in width for two car driveways. Double-track/wheel strip driveways are permitted for single family homes, duplexes, backyard cottages, cottage courts, and attached houses and townhouses. Each wheel strip must be 18" in width and the area between the wheel strips must have living groundcover. However, the area within the public right-of-way must be fully paved along its total width from the property line to the curb line/road pavement.
7. Porches, balconies and other building elements must adhere to the Design Regulations in Article 8: Building Types, [Div. 8.16 – Building Elements](#).
8. Refer to [Article 2: Measurements and Exceptions](#) for information regarding permitted setback encroachments, measurement of setbacks for irregular shaped lots, measurement of building height, etc.
9. Off-street vehicle parking and loading areas for single family homes, backyard cottages, duplexes and attached houses may be either gravel, concrete, asphaltic concrete, or other dust-free surfaces. Other surfaces are subject to City approval.

_____ (initial) _____ (date)

Required Application Documents:

PLEASE NOTE: 1 digital copy of the **entire application** must be submitted via e-mail, on a USB drive or CD.

1. Warranty Deed (**1 paper copy + 1 digital copy**)
2. Authorization Letter (if applicable)
3. Site Plan – as approved during the Site Plan Review, or with modifications requested. Site Plan must show:
 - North arrow, scale, and all dimensions
 - Legal property lines, with dimensions
 - Legal easements, with dimensions
 - Footprint(s) of any existing structures on the lot or property, with dimensions
 - Footprint of all proposed new construction (house, garage, and any other buildings), with dimensions
 - Dimensions for front, rear, left side and right side setbacks
 - **Required setbacks for each zone can be found in the City of Victor Municipal Code**, Title 10: Zoning, [Article 4: Residential Districts](#) or [Article 5: Mixed Use Districts](#)
 - Water, sewer and electric lines serving the site, and proposed ties to the residence
 - **To locate utilities call Dig Line 800-342-1585 and then indicate these utilities on your site plan.**
 - Driveways (existing or proposed), with dimensions
 - Sidewalks (existing or proposed), with dimensions
 - Streets and alleys that the property can be accessed from, with street name(s) and/or alley name labeled
4. Foundation Plan (**2 paper copies 24” x 36” + 1 digital copy**)
5. Elevation Plans – North, South, East, West (**2 paper copies 24” x 36” + 1 digital copy**)
6. Truss Package - where applicable – pre-engineered truss packages must be submitted. (**2 paper copies 24” x 36” + 1 digital copy**)
7. Cross Section (**2 paper copies 24” x 36” + 1 digital copy**)
8. Floor Plan (**2 paper copies 24” x 36 + 1 digital copy**)
9. Roof Plan (**2 paper copies 24” x 36 + 1 digital copy**)
10. Basement Plan (if applicable) (**2 paper copies 24” x 36” + 1 digital copy**)

Procedure:

Upon submission of complete application the application will be reviewed and the permit issued within 10 business days. **Water and sewer connection fees, in addition to building permit fee, are due upon submission of application;** application will not be reviewed until all applicable fees are paid.

Authorized Signature:

Inspection & Plan Review Information

- Inspection and issuance of the CERTIFICATE OF OCCUPANCY must occur **prior to the expiration** of the building permit. _____ (initial) _____ (date)
- It is the responsibility of the applicant to contact building inspector 24 hours in advance for any and all required inspections. **City Building Inspector: Jason Letham (208) 317-3365**
_____ (initial) _____ (date)
- It is the responsibility of the applicant or applicant's contractor to arrange State Electrical and Plumbing inspections, and present proof of compliance prior to issuance of Certificate of Occupancy.
_____ (initial) _____ (date)
- Additional plan reviews necessitated by changes, additions, revisions, etc., are charged at a 1 hour minimum. Inspections scheduled outside normal business hours (8:00 a.m.–5:00 p.m. M-F) are charged at \$45.00 each. _____ (initial) _____ (date)
- It is the responsibility of the applicant to contact the Building Inspector 48 hours in advance of the needed inspection required for the Certificate of Occupancy. No inspections will be conducted on weekends or holidays. _____ (initial) _____ (date)
- A building permit may not exceed one year unless agreed to in a development agreement. Permits may be extended after the first year with a required fee of \$40.00 per year thereafter. **An expired building permit would require a new building permit with new fees.** Any additional inspections fees for re-inspections will be billed at a minimum of \$45.00 per visit. Fees are to be paid prior to issuance of the Certificate of Occupancy. _____ (initial) _____ (date)

Certificate of Occupancy and Use

Certificate of Occupancy shall be issued before any building or use is occupied and shall be approved by the Building Inspector certifying compliance with the 2012 IRC and by the City Planning and Zoning Administrator verifying compliance with the Victor Development Code, including any conditions imposed upon permit approval. Occupancy of a building or use without the Certificate of Occupancy shall be a violation of this Ordinance and permit. The issuance of the Certificate shall not be considered approved if any violation of this Ordinance is discovered after the inspection. Certificate of Occupancy will be issued within two (2) business days of scheduled and approved final inspection of the structure. NO EXCEPTIONS.

_____ (initial) _____ (date)

NOTE: NO CERTIFICATE OF OCCUPANCY SHALL BE ISSUED UNTIL PROPER STREET NUMBERS HAVE BEEN PLACED ON BUILDING. ALL NUMBERS SHALL BE AT LEAST 4" AND BE VISABLE AND LEGIBLE FROM THE ROAD FRONTING THE PROPERTY. _____ (initial) _____ (date)

Unpermitted Construction

Prior to construction or other activity governed by this ordinance a permit shall be issued to the applicant. Construction or excavation is prohibited until the permit is issued.

CONSTRUCTION WITHOUT A PERMIT IS SUBJECT TO A STOP WORK ORDER AND A FINE OF UP TO \$1,000.00 PER DAY. _____ (initial) _____ (date)

Building permit, water and sewer connection fees

Water and Sewer Connection Fees are based on a Residential Meter (3/4 line, larger lines will be priced at time of request) _____ (initial) _____ (date)

- PLUS Any cost or expense related to make the connections beginning at the water and sewer mains to the property line (in other words, excavation, labor parts, road repair, pipe) However, the applicant/property owner has the option of having his/her excavation contractor do the digging required from the main lines to the property lines. _____ (initial) _____ (date)
